### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1, 4, and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Roll in view of Carroll et al.

Roll discloses an air freshener comprising a frame 6 shaped to define a void 12, the frame being formed with to have at least one side member 10, a slot formed in the at least one side member, the slot being oriented toward the void (see Figure 4 attached herein), an insert 18 sized to fit within the void and configured to frictionally engage the slot to retain the insert in the void, and an attachment means 26 for attaching the air freshener to a support as recited in claim 4. Carroll et al. teaches an air cleaning device comprising a frame 10 formed from beads of an absorbent material to absorb a catalyst. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the device of Roll by making the frame from absorbent beads as taught by Carroll et al. in order to absorb scented material into the beads and to dispense the scented material to form an air freshener. The use of plastic for the beads would have been a matter of design preference since it only requires a mere change of material to perform the same the same function as the prior art.

Art Unit: 3752

3. Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Roll in view of Carroll et al. as applied to claim 1 above, and further in view of Wanzenbock.

Wanzenbock teaches a fragrance dispenser comprising an insert 13 made of a non-woven material which is substantially rigid to hold and dispense in which, due to its rigidity, the insert could be easier to remove and install. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the device of Roll and Carroll et al. by replacing the insert with a non-woven substantially rigid material as taught by Wanzenbock to provide an easy way of removing and replacing the insert.

***Allowable Subject Matter***

4. Claim 6 is allowed.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Colon, Forbes et al., and Ryberg are pertinent to Applicants invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Davis D. Hwu whose telephone number is 571-272-4904. The examiner can normally be reached on 8:00-4:30. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave Scherbel can be reached on 571-272-4919.
